EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 13-19 which are directed to the non-elected invention without traverse.

2. The following is an examiner's statement of reasons for allowance: None of the prior art discloses the claimed apparatus comprising a two-dimensional array of ferrules formed with a longitudinal bore and wherein an optical fiber passes through said bore of each of said ferrules and the end of the optical fiber extends from the face of said ferrule a predetermined distance and into a fiber alignment hole formed in a substrate and having an inside edge formed with at least one corner, a method of aligning fiber arrays as being recited inter alia in claims 1-12. The method steps being relied upon are that of inserting an optical fiber through said bore of each of said ferrules until the end of said optical fiber extends from said ferrule a predetermined distance; positioning said end of each said optical fiber into a corresponding fiber alignment hole formed in a substrate; and displacing said substrate in one or more direction such that the end of the fiber contacts the corner formed on the inside edge of the fiber alignment hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
